

Senior Architect/Team Lead

Ambir's recruiting strategy is simple: *We hire really "GOOD" people with "GREAT" skills and support them in turning their professional aspirations into reality.* Ambir team members are bright, passionate and caring people with diverse backgrounds, who come together to create a unique values based culture.

Ambir is an ICT Services company that believes that the success of our company is a direct result of the quality and character of our people. We have built a strong, high energy, high performance team of IT professionals dedicated to leveraging their collective years of experience and success, both with product and consulting organizations, to help our clients achieve their business and technology goals.

We are currently seeking highly enthusiastic, positive and self motivated consultants who care about people and want to be part of a different kind of company. The successful candidates are ready for the next stage of their career journey, have had a successful track record as a consulting practitioner, and have a reputation as a leader amongst their peers, in their field and in their community.

We are constantly on the lookout for dynamic people who are always one step ahead of the pack. If you are a "GOOD" person, with the passion and desire to contribute and grow with us, then you should apply to become part of our team.

Immediate Position: Senior Architect/Team Lead

Location: Halifax; NS and St. John's; NL

Ambir is looking for an experienced individual to fill a **Senior Architect/Team Lead** role on project-based and client-facing service engagements. Specifically, qualified candidates should possess experience, knowledge and skills that allow them to execute on the following responsibilities:

- Provide technical leadership and expertise in the design, development, implementation and support of new applications and enhancement of existing applications.
- Collaborate with team members to define business problems/opportunities, set technical goals, identify objectives and establish functional, non-functional, data and technical requirements.
- Manage analysis and design activities, including conceptual system design, technical design, and detailed specifications.
- Provide thought leadership to the software team in the areas of software design, software implementation, documentation, quality assurance, deployment and production support.
- Willingness to travel if required

Experience/Skill Requirements:

- 10+ years experience - 4+ years as a dedicated Software Architect
- Skilled in all phases of the SDLC and have experience with structured methodologies (Unified Process, Agile Modelling, Scrum)
- Strong knowledge of architectural design in line with industry best practice.
- Experience with SOA and ESB architectural concepts and associated technologies.
- Leadership skills and a high attention to detail
- Strong client focus and excellent communication skills.
- Experience working for government departments would be considered an asset

Prior experience with the following technologies, with examples in parenthesis, will be considered an asset to the role:

- Dependency Injection Frameworks (Spring, Spring IoC, Google Guice))
- Java Web Frameworks (JavaServer Faces, Struts, Tapestry, Spring MVC)
- ASP.NET , LINQ, C#.NET, NET SDK v3
- Revision Control Software (Subversion, Mercurial, ClearCase)
- Webservices
- Service Oriented Architectures
- Oracle WebLogic family, including WebLogic Server, weblogic Portal, Aqualogic Service Bus and WebLogic Integration
- dBASE

About Ambir:

Ambir is a different kind of company and we are proud of that. Our growing team consists of experienced, intelligent and ambitious individuals, who are committed to developing a sphere of positive influence with our clients and in our community. Furthermore, while the services we offer will rest on a deep foundation of experience and knowledge, we strive to remain agile and fluid in the approaches and techniques we employ.

Ambir, recognized twice as “The #1 Best Place to Work in Atlantic Canada” by Progress Magazine, and ranked nationally as one of Canada’s Top 25 Up and Comers in recent Branham Group Surveys of ICT Companies, maintains offices in Saint John, Fredericton and Moncton; New Brunswick, and Halifax; Nova Scotia. We are also looking forward to expanding our business in St. John’s, NL!
