

## Senior Developer

Ambir's recruiting strategy is simple: *We hire really "GOOD" people with "GREAT" skills and support them in turning their professional aspirations into reality.* Ambir team members are bright, passionate and caring people with diverse backgrounds, who come together to create a unique values based culture.

Ambir is an ICT Services company that believes that the success of our company is a direct result of the quality and character of our people. We have built a strong, high energy, high performance team of IT professionals dedicated to leveraging their collective years of experience and success, both with product and consulting organizations, to help our clients achieve their business and technology goals.

We are currently seeking highly enthusiastic, positive and self motivated consultants who care about people and want to be part of a different kind of company. The successful candidates are ready for the next stage of their career journey, have had a successful track record as a consulting practitioner, and have a reputation as a leader amongst their peers, in their field and in their community.

We are constantly on the lookout for dynamic people who are always one step ahead of the pack. If you are a "GOOD" person, with the passion and desire to contribute and grow with us, then you should apply to become part of our team.
